

## **Petition in support to Darya:**

# **Do not let Darya to be alone!**

Darya is a drop in the ocean of Human beings, suppressed in our country that was forced to leave the hell wide spread in Iran. She along with her family is now in another Hell called Van and has no other option than take her own life. Dry hunger strike is the only alternative this young family had to choose in fear for deportation and after five years of being in an uncertain situation. Little Darya, is facing and carrying a bitter and horrible experience. From escaping over dangerous border mountains to prison in Syria, to an unknown place in Turkey as refugee and now together with her mother and father in front of Office for UNHCR in Van. All these happened not during a short period of time, but during some years that is a whole life for our little Darya. And now: Dry hunger strike!

We, signed, once again protest against violation of human rights! Once again in another scenario and once again for defending the right for asylum. Therefore we announce our protest to be heard by conscious souls around the world.

Today, we, political, social and cultural activists along with Iranian media and organizations, would like to draw attention of freedom lovers and conscious souls of the world to a out coming human disaster of we do not act immediately.

Lets eco the voice of Darya and her family all over the world!
